It covers about 23 of the first pages on the win with story, stats and photos including the following chapters; introduction, Saints history, regular season games, the defense, Sean Payton, NFC Playoffs, Reggie Bush, Drew Brees. The photos and catchy title stories are great. 127 pages total with satin gloss pages.If you are a real fan, you'll want this book!6 of 7 people found the following review helpful. A nice little bookBy A CustomerMarching in is a nice little book, that talks about every game of the 2009 season and the Superbowl. For each game they have a few pages describing the game and highlight what players made the biggest impact. For each game they give you the box score which is nice. They also have a few pages on the history of the saints and talk about a few of the key players of the 2009 season. The photos in the book

are worth buying the book alone, they picked some of the best. Now with that said, I wish they had included stats of the players, stats from the games, they just have the article and box score. But all together its a nice little book with well written articles and great photos. Well worth the price.

WhoDat?!?!It's the New Orleans Saints, marching into the Crescent City as proud owners of the club's first Super Bowl championship. *Marching In: The World Champion New Orleans Saints* captures all the excitement of the franchise's most memorable season with stunning action photography and entertaining text. Fans will love the detailed stories devoted to every game-with extended coverage of the Super Bowl-plus in-depth features on Drew Brees, Reggie Bush, Sean Payton, and the Darren Sharper-led Saints defense. This commemorative collector's edition is must-have keepsake for every proud citizen of Who Dat Nation.
