It's a great guide for the rest of the state, just don't expect to find anything about Boston or the Cape in this book.Once I got beyond that, I found the guide to be informative and useful - the reason I always look for this series when traveling somewhere new.Here's hoping someone is working on the Boston and Cape version.0 of 0 people found the following review helpful. Very informative about Massachusetts.By AriesmeEven though it is from 2000 it is still filled with current address. My history with travel books goes far. This book is so chocked with information I am impressed.
