Can't go wrong with Pocket Naturalist Guides By Book Lover I keep mine handy near the window that overlooks the bird feeders for anyone who is curious about the birds at the feeders. The Pocket Naturalist guides are all terrific; laminated cardboard so they are sturdy, compact and easy to use for the most common birds/flora/fauna. Love the foreign country guides because they easily fit into a purse, pack or pocket. 1 of 1 people found the following review helpful. Quick Reference By Tangora This is great for a quick reference. Same quality, and my wife is now looking forward to seeing even more birds that she didn't know were in the area!
