photography by Paul Rezendes : Massachusetts Impressions (Impressions (Farcountry Press)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Massachusetts Impressions (Impressions (Farcountry Press)):

This beautiful new book on The Bay State doesn't just showcase spectacular views of the coast, with its tall ships, historic lighthouses, and beautiful seaside communities. Massachusetts Impressions also takes readers inland, featuring photographs of some of the most beautiful scenery in New England---from the stunning Berkshires to winding, boulder-strewn streams, from pastoral, rolling farmland to lush state forests and their resident flora and fauna. Featuring 100 color photographs, Massachusetts Impressions also works in a great deal of the state's history and culture, with images of Revolutionary War battlegrounds, Native American cultural sites, renowned universities, a variety of living-history, maritime, and art museums, and charming small towns.
