Have you looked at a phone book lately ? If you order it, make sure you get a really good magnifying glass.0 of 0 people found the following review helpful. and very useful.By Math BloggerCompact (but small print), and very useful.4 of 5 people found the following review helpful. No Longer EssentialBy AlisonNFT does not have the quality of binding it used to have. I have an NFT for New York (years old) and it is extremely well bound and has a strap on it to help you keep your place. This one is not of the same

quality. The information is helpful, but I still find myself relying on my phone for up-to-date info. Really, with smartphones, this book is no longer a must have.
