Would have liked more about the ships, crews and ports visited.0 of 0 people found the following review helpful. Three StarsBy Kindle CustomerIf you like slide shows of your relative's travels, you'll love this book.3 of 3 people found the following review helpful. Sadly on this occasion it just wasn't my type of book but no doubt it will appeal to some.By Ali - The Dragon SlayerEach section is 1-2 pages explaining what her her friends have been doing. Maybe it's because I am from the UK don't share the same sense of humour but I can

honestly say for a book that is supposedly meant to make you laugh I personally found it rather lacking in that department a touch condescending. She makes the assumption that everyone travels or would know ship etiquette .. I have travelled extensively but have never been on a cruise this book isnt likely to alter my opinion or encourage me to do so. On a positive note there are some photographs to break the text at the end of each drama there is a useful travel tip. This is ideal to have in a dentists waiting room, read a tiny bit in short bursts or dare I say it leave it in a restroom for a few minutes distraction! The one element that did fascinate me was the fact a large ship has its own morgue .. I guess I had never considered that possibility before .. so I did learn something! Thanks to the author Pump Up Your Books Tour Hosts for the opportunity to read this in exchange for my honest opinion sadly on this occasion it just wasnt my type of book but no doubt it will appeal to some.

Ship happens. Cruises can be quite the adventure within an adventure if you keep your eyes open and watch the little dramas that are going on among the several thousand passengers and crew members aboard the ship. Reading author Lori A. Moores true tales of things that happen on the high seas will have you saying, Oh Ship! From stories of passengers pepper-spraying other passengers to grown men fighting over glass figurines of penguins, youll laugh until your ribs hurt.
