Ashley Armstrong : Orlando's Disney World 2011: Disney World Travel Guide Series before purchasing it in order to gage whether or not it would be worth my time, and all praised Orlando's Disney World 2011: Disney World Travel Guide Series:

0 of 0 people found the following review helpful. not a good buyBy Auntiei have gone to WDW for the past 30+ years and have always used a guide book to plan my trips and learn of new rides or restaurants. i decided to try this one due to the positive reviews. it was the worse guide book i have ever seen. i can get more and better info from the disney

website. there are no detailed descriptions of the rides or attractions and no opinions about the food in the restaurants. There isn't any useful info to make any decisions or plan the order to visit rides. After reading and using "The Unofficial Guide..." by Schlesinger (which is so good and thorough, i was shocked how bad this book was. Do not waste your money on this book. If you are planning for a first trip to Orlando, this would not help you. if you have been there before, it still won't help you.
