**Mike Gerrard, Donna Dailey : Pacific Coast Highway Hotels 2014** before purchasing it in order to gage whether or not it would be worth my time, and all praised Pacific Coast Highway Hotels 2014:

It is 96 pages in length, all in black and white. It also lacks an index which really makes navigating difficult. The maps in the back are too small to be useful and the most glaring issue I

found is the lack of actual places to stay in this book. The authors only give you one or two places to stay in each town. I need more choices than that, especially when the author says that one of the choices they give you is too expensive. I use the website Trip Adviser and that is much more informative as to where to stay and the critiques are excellent too. I also use Bed and Breakfast.com for B@B's and this book for the price is no better than either of those for learning about where you might want to stay. If you have a smart phone, you can go to Trip Adviser or B@B.com to find many more places that fit your desires for a place to stay. 1 of 1 people found the following review helpful. Pacific Coast Highway Hotels 2014 By jackie We're planning a trip to CA to travel up the Pacific Coast Highway and we've never been to California. I really liked this book because all along the way it gives you different levels of hotels concerning price and amenities. It even gives you some of the history of the hotels and we're into that when we travel. I would recommend it. 1 of 1 people found the following review helpful. As this a very big ticket, bucket list trip for me (all the way from Ireland) I certainly do not want it to be spoiled by making any wrong choices accommodation wise. Mike and his wife Donna have huge experience of all kinds of lodgings along this route and have kindly shared that knowledge in this priceless guide. I am now perfectly happy with my selection and wildly excited about my trip of a lifetime.
