**Don Starkell : Paddle to the Amazon: The Ultimate 12,000-Mile Canoe Adventure** before purchasing it in order to gage whether or not it would be worth my time, and all praised Paddle to the Amazon: The Ultimate 12,000-Mile Canoe Adventure:

I have looked for it from time to time but couldn't remember the author's name or the exact name of the book. My daughter helped me track it down. This book gave the impetus to read non fiction adventure stories. I am a great fan of this type of non fiction because I can live it, vicariously, through the author. I don't have to put this

adventure on my "bucket list". It is a riveting read. I would highly recommend this book to anyone who has the "spirit" of adventure in their blood. 2 of 3 people found the following review helpful. You can't make this stuff up...By Gary D. GossWell, maybe you can but it would take someone with a great deal of imagination to do it. Having canoed the Florida Everglades, some of the Gulf of Mexico and some on the Great Lakes I like to consider myself a bit of an adventurer and (at least) a moderately good canoeist. However, Don Starkell's tale of adventure makes my experiences seem very trivial and insignificant. His canoe journey of over 12,000 miles, through some of the most intimidating environments on the planet, seems impossible. What a terrific story of triumph over virtually every type of adversity one can imagine. If you're an adventurer, nature lover or interested in how far the human spirit can take you this book is a "must read". The book is so good there is now interest in making a movie based on this adventure. 0 of 0 people found the following review helpful. BookBy shoppergirljust like described

It was crazy. It was unthinkable. It was the adventure of a lifetime. When Don and Dana Starkell left Winnipeg in a tiny three-seater canoe, they had no idea of the dangers that lay ahead. Two years and 12,180 miles later, father and son had each paddled nearly twenty million strokes, slept on beaches, in jungles and fields, dined on tapir, shark, and heaps of roasted ants. They encountered piranhas, wild pigs, and hungry alligators. They were arrested, shot at, taken for spies and drug smugglers, and set upon by pirates. They had lived through terrifying hurricanes, food poisoning, and near starvation. And at the same time they had set a record for a thrilling, unforgettable voyage of discovery and old-fashioned adventure. "Courageous . . . Exciting and always immediate." -- The New York Times Book Review  
From the Paperback edition.
