Joe Cuhaj, Curt Burdick : Paddling Alabama (Regional Paddling Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Paddling Alabama (Regional Paddling Series):

1 of 1 people found the following review helpful. great introduction for new paddlers and those looking to newly explore the state. By Dr. BossFantastic for those starting out paddling in Alabama or looking to expand beyond their immediate area. As the authors note, Alabama is blessed with many, many miles of rivers and creeks and a book outlining all of them would be impossible to make without expanding into several volumes. I also like the hotel, restaurant, and area attraction suggestions included with each trip description. Overall, this book is much better than Alabama Canoe Rides

and Float Trips by Foshee, which was written before several dams were constructed. No fault to Foshee. It's just that rivers and creeks and lakes have changed since he wrote his book.0 of 0 people found the following review helpful. Decent delivery, product out-dated!By Read2live_luv2readThe book was a bit dated. Some of the information was several years old. Otherwise the book arrived without any problems. Everything was acceptable.0 of 0 people found the following review helpful. Great Paddling GuideBy Dustin T.This is a Great book. It is very detailed and informative.
