A Long Awaited Revision By Darren This is a revision to the classic "Canoeing the Jersey Pine Barrens" originally published by the same author through Globe Pequot Press. Although the fast paced development of this NJ area makes a guide such as this very difficult to keep updated and current, this was a much needed revision to the original canoeing guides. The history, obstacles, maps charts, launch rental sites, approximate paddling times, and grades for each river make this guide ideal for both canoeists and kayakers. Listings for Pinelands preservation and conservation organizations are also included so those who treasure these rivers can support the cause. If you are paddling in NJ, you won't want to miss at least one of the Pine Barren Rivers and this is the guide you will need. 1 of 9 people found the following review helpful. Correction By Constance L. Stallings Reader Darren supplied incorrect credit for this book. Globe Pequot Press was not the original publisher. The publisher was Fast McMillan, with the imprint of The East Woods Press, a small regional publishing group in New York City.

This updated guide provides everything a paddler needs to know to have fun canoeing or kayaking through the unique ecosystem of the Jersey Pine Barrens.

"Loaded with information, photographs, and maps of South Jersey's Winding Rivers. . . . Helps canoeists and other visitors appreciate this unique area." --Philadelphia Enquirer; "This one is special. After a short perusal, the New Jersey canoeist will soon wonder how canoeists made do without this attractive, practical, thorough but concise handbook." --Trail Walker; "A well-crafted mini-encyclopedia." --Appalachia magazine.
