

and Spanish Edition):

This field guide gives you Panama's colorful Caribbean Reef Fish on one easy to use single sheet (double-sided) laminated reference guide. The fish are beautifully illustrated in great detail by Alina Surez, who is world renowned for her natural history illustrations, and has designed wildlife stamps for Cuba as well as other countries. The reef fish are artfully arranged in by color and species. Names are given in Spanish, Latin, and English along with approx. maximum length. In some cases both the juvenile and adults are illustrated. These detailed scientifically accurate illustrations are printed with UV resistant inks, and the guide is laminated: uses a 10 point print stock sandwiched between two 10 mil rigid polyester films. These guides will withstand all the natural elements and have proven to be enduring long lasting rugged field companions. These waterproof guides are the perfect size 7"x11" (17.85cm x 28cm); they fit easily into your backpack or tote so that you can pull it out when you see a nurse or bull shark, or wonder whether that pretty yellow fish is a French Grunt or a Spanish Grunt or a White Grunt. They are also wonderful reminders of your adventures. Rainforest Publications' wildlife guides are the perfect companion if you're a naturalist, critter watcher, or adventure traveler.

About the Author Rainforest Publications specializes in the Wildlife and Natural History of Central and South America. Our wildlife guides are the perfect companion if you're a naturalist, bird watcher or adventure traveler. Our illustrators are tops in their field of interests and spend a lot of time in the wild and studying the species they illustrate. Most live in Costa Rica. Our scientific staff continually updates the guides so the information is complete and accurate. Our print company is locally owned by its employees. Our guides are printed in the USA on recycled paper.
