Rainforest Publications : Panama Pacific Reef Fish Identification Guide (Laminated Single Sheet Field Guide) (English and Spanish Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Panama Pacific Reef Fish Identification Guide (Laminated Single Sheet Field Guide) (English and Spanish

Edition):

This is your reference guide to the fish you'll find on and near Panama's Pacific coast reefs. In addition to the colorful Triggerfish, various Jacks, and all the different Puffers, it starts with Sharks, Rays, and Eels. Panama's Pacific Reef Fish are beautifully illustrated in great detail by Alina Surez, who is world renowned for her natural history illustrations, and has designed wildlife stamps for Cuba as well as other countries. The guide is an easy to use one sheet (double-sided) laminated reference guide. Names are given in Spanish, Latin, and English along with approx. maximum length. In some cases where males and females look different, both are illustrated; and some fish have phases which are included. These detailed scientifically accurate illustrations are printed with colorful UV resistant inks, and the guide is laminated: uses a 10 point print stock sandwiched between two 10 mil rigid polyester films. These guides will withstand all the natural elements and have proven to be enduring long lasting rugged field companions. These waterproof guides are the perfect size 7"x11" (17.85cm x 28cm); they fit easily into your backpack or tote so that you can pull it out when you wonder whether that pretty fish which looks like an angel fish really is, or if it is a butterfly fish or a barberfish. These guides are also wonderful reminders of your adventures. Rainforest Publications' wildlife guides are the perfect companion if you're a naturalist, critter watcher, or adventure traveler.

About the Author Rainforest Publications specializes in the Wildlife and Natural History of the Americas, particularly tropical environments. Our wildlife guides are the perfect companion if you're a naturalist, bird watcher or adventure traveler. Our illustrators live in Costa Rica and are tops in their field of interests. Our scientific staff continually updates the guides so the information is complete and accurate. Our print company is locally owned by its employees. Our guides are printed in the US on recycled paper.
