I bought this book in advance of booking a Disney cruise and, based on the reviews of the shore excursions decided to wait a year or two before taking my family. I discovered that most of the exciting shore excursions are targeted and older and taller children and that we would get more bang for our bucks in a few years. Disney cruises are very expensive and if we take one, I want to do it right. I am very grateful that I purchased this book before spending a lot of money, and am very much looking forward to a vacation in the future.0 of 0 people found the following review helpful. HelpfulBy Rhonda HardyThis book is very helpful about telling you some little secrets that Disney does not advertise and real people give reviews on everything there is to know about Disney. Love that about the book. Will purchase the next edition.0 of 0 people found the following review helpful. PassPorter's Disney Cruise Line and its Ports of CallBy Madge M.
