Neil Surprenant : Paul Smith's Adirondack Hotel and College (NY) (Images of America) before purchasing it in order to gage whether or not it would be worth my time, and all praised Paul Smith's Adirondack Hotel and College (NY) (Images of America):

From 1859 to the present, the name Paul Smiths has meant different things to visitors and residents of the Adirondack Mountains of northern New York. In the 19th century, the name was synonymous with a grand hotel on the shores of Lower St. Regis Lake and the wilderness guide who was its founder. In the early 20th century, the hotel business expanded to include land sales, a railroad, a telephone company, and the Paul Smiths Electric Power and Light Company, which became the first electric provider in the region. After World War II, Paul Smiths College was founded to provide quality liberal arts and technical associate-level degrees to returning veterans and recent high school graduates. Today Paul Smiths College attracts students from across America to the only baccalaureate-degree-granting institution in the six-million-acre Adirondack Park.
