Discover every corner of Pennsylvania, from the place where the United States began to the shores of Lake Erie to the first-class city of Pittsburgh, historic Scranton, and the rural farmland, forestland, and small towns in between. Visit Pennsylvania's historic sites, which are also the nation's historic sites because so many important events took place here. View the birthplace of the only US president from Pennsylvania, trees over 450 years old, the place where oil was first discovered, the peaceful Amish countryside, historic colonial buildings, and modern metropolitan cities. Through striking images and detailed captions, join the photographer on a journey of one of the country's most significant and diverse states.

About the Author Michael P. Gadomski, a third-generation Pennsylvania native, is an internationally published photographer and former state park ranger. He has spent his lifetime exploring Pennsylvania's natural and cultural history.
