This pamphlet gives you the butterfly species, and what type of habitat it may be found in Pennsylvania. The pamphlet is also laminated to make it more durable when carried in the field. The caterpillar and pupae stages are also included. This is a wonderful pamphlet to educate children about butterflies and moths. I highly recommend it for the casual butterfly watcher. 0 of 0 people found the following review helpful. I love these guides By Rachel Anschuetz I love these guides, I think I have them all.
