Also, there is a color-coded map that does not correspond to any of the guide items. It is laminated and folds accordion style. Would not buy again.1 of 1 people found the following review helpful. Trees, trees, trees....By Happily ContentedBecause I didn't read the copy correctly, I expected a book. It turned out to be a small pamphlet but a very well witten pamphlet and I love the ease of handling it. It's one of my favorite tree identifiers.0 of 0 people found the following review helpful. Nice bookletBy S. BushNice booklet - easy to carry around.

Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.
